EDUCATION

Vellore Institute of Technology, Chennai

Bachelors of Electronics and Communication Engineering

S.K.P Vidya Vihar

Senior Secondary (Class XII)

Saint Joseph's School

Secondary (Class X)

July 2021 - June 2025

Percentage: 76.2

March 2019 – March 2021

Percentage: 79.4

March 2018- March 2019

Percentage: 84.33

SKILLS AND INTERESTS

Programming Languages

C, C++, Java, JavaScript, C#, .Net

Frontend Technologies

HTML5, CSS3, Bootstrap, React.js

Database

MySQL, MongoDB, MSSQL

Behavioral Skills

Critical thinking, Data-driven decision making, Problem Solving

Hobbies and Interest

Cooking, Working Out and Playing Cricket

Work Experience

Programmer Analyst Trainee

June 2025 - Present

Cognizant Technology Solutions, Hyderabad

- Tools and technologies used: C#, .Net, React, HTML, CSS, Microsoft -SQL
- Developed a HealthCare Booking Appointment System which comes with two roles doctor and patient, doctor posts the availability so that patient can book the slots.
- Satisfied all business requirement and submitted on time.

Projects

HealthCare Booking Appointment System | C#, .Net, React, HTML, CSS, Microsoft -SQL

- Developed a full-stack web application for healthcare appointment management, featuring dual roles for **doctors and patients** to streamline scheduling and consultation processes.
- Implemented **JWT-based authentication** to ensure **secure, stateless user sessions**, enhancing data protection and preventing unauthorized access.
- Utilized **Jira** for **agile project management** and sprint tracking, ensuring timely task completion and transparent workflow.

Employee Task Management System | HTML, Tailwind CSS, React.js, VS Code

- Designed and created a responsive web application for task assignment and tracking, enabling 100% real-time task updates and reducing task management overhead by 30%. Employers can assign tasks seamlessly, while employees can accept, update statuses (completed/failed), and monitor their progress.
- Developed a robust backend using **Node.js** and **Express.js** for API handling and task management.
- Leveraged **MongoDB** as the database to store and manage task data, ensuring scalability and reliability.

E-Commerce Website Design | HTML, CSS, JavaScript

- Designed and created a fully responsive e-commerce homepage using **HTML**, **CSS**, and **JavaScript**.
- Proposed dynamic product listing and cart functionality using JavaScript, enabling real-time updates to cart totals and improving user checkout efficiency by 40%.
- Configured media queries to ensure optimal viewing on over 10 distinct device types, leading to a 20% reduction in page load timing.

CERTIFICATIONS

Google Cloud Computing foundation

- Gained hands-on experience with Google Cloud tools, including Compute Engine, BigQuery, and Cloud Storage, to design scalable, secure cloud architectures.

Java SE11 Development on Oracle Cloud

- Learned the core features of Java SE 11, including modules, functional programming, and streams, to write efficient and maintainable code.

Java Training by IIT Bombay

- Developed a strong foundation in core Java concepts, including object-oriented programming, exception handling, and multithreading.

POSITIONS AND RESPONSIBILITY

Member of Management Team – Youth Red Cross Club

- Coordinated and managed various club events and activities to promote social welfare and awareness.
- Collaborated with team members to plan, organize, and execute impactful programs such as blood donation drives, health camps, and community outreach initiatives.
